

City of Seattle

Gregory J. Nickels, Mayor

Office of the Mayor

September 24, 2007

Honorable Nick Licata
President
Seattle City Council
City Hall, 2nd Floor

Dear Council President Licata:

I am transmitting the attached proposed Council Bill that establishes a new square footage business tax to partially offset the anticipated loss in Business and Occupation (B&O) tax revenue that will begin on January 1, 2008 as a result of implementation of RCW 35.102.130. The proposed tax is estimated to recover most of the lost revenue but is designed to ensure that no business will pay more than it pays under the City's existing (2007) tax law.

In 2003, the Legislature passed HB 2030 (now codified as RCW 35.102.130) with the stated intent of enhancing municipal B&O tax fairness and uniformity. The Bill required Washington cities that impose a B&O tax to develop a model ordinance and adopt HB 2030's mandatory provisions, which Seattle has done. Additionally, HB 2030 requires all sales of tangible personal property to be allocated to the delivery location and the use of a two-factor formula to determine what share of a business' total service income is subject to a gross receipts tax, effective January 1, 2008. According to a study conducted by the Washington State Department of Revenue in 2004, the City is expected to lose approximately \$15.6 million in B&O tax revenue due to these new allocation and apportionment provisions which, adjusted for inflation and tax base growth, equates to a loss of approximately \$21.9 million in B&O revenue in 2008.

The attached proposed Bill provides for the implementation of a square footage business tax to become effective January 1, 2008 to partially offset of lost B&O revenue. This revenue is essential to maintain basic City services and to address our commitments to add police officers, improve transportation, and reduce homelessness. The only businesses that will pay the square footage tax are those that are affected by the changes imposed by the new state law. We have structured the tax so that no business will pay more tax on its activities than it would have paid under the City's current tax law.

Thank you for your consideration of this legislation. Should you have any questions in this regard, please contact Dwight Dively at 684-5212, or Mel McDonald at 233-0071.

Sincerely,

A large, stylized handwritten signature in black ink, appearing to read "Greg Nickels".

ORDINANCE 122564

AN ORDINANCE related to taxation of businesses; creating a new Chapter 5.46 of the Seattle Municipal Code; and amending sections 3.02.125, 5.30.010, 5.30.060, 5.55.010, 5.55.040, 5.55.060, 5.55.150, 5.55.165, 5.55.220, and 5.55.230 of the Seattle Municipal Code.

WHEREAS, the State of Washington grants cities the power to license businesses for the purpose of raising revenue; and

WHEREAS, the City of Seattle has, since 1932, imposed a business license tax (also known as a business and occupation (B&O) tax or gross receipts tax) on persons engaging in business in Seattle; and

WHEREAS, in 2003, the Legislature passed HB 2030, now codified as Chapter 35.102 RCW, which changed how cities impose B&O taxes; and

WHEREAS, RCW 35.102.130, which becomes effective on January 1, 2008, requires cities to change how B&O taxes are calculated for certain types of businesses; and

WHEREAS, in 2005, at the Legislature's request, the Washington Department of Revenue completed a study of the effects of RCW 35.102.130, which estimated that the City of Seattle would lose about \$15.6 million in revenue as a result of the new provisions; and

WHEREAS, updating this estimate to reflect inflation and growth in the tax base suggests the City of Seattle will lose about \$21.9 million in revenue in 2008; and

WHEREAS, RCW 35.102.1301 states that the Legislature's intent in having the Department of Revenue conduct a study was "to allow local jurisdictions to anticipate and appropriately address any potential adverse revenue impacts" from the change in state law; and

WHEREAS, the Mayor and City Council have reviewed multi-year forecasts of the effects of RCW 35.102.130 on the City's General Fund budget and believe the resulting revenue loss would preclude the City from proceeding with planned increases in police staffing, improvements in transportation infrastructure, and support for the 10-Year Plan to End Homelessness; and

WHEREAS, other Washington cities use different forms and combinations of business taxation, including taxes measured by the space used by businesses; and

1 WHEREAS, in imposing a new complementary tax under this ordinance, the Mayor and City
2 Council seek to ensure that no business will pay more total tax than it would have under
3 existing law; NOW, THEREFORE,

4 **BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

5 **Section 1.** Effective January 1, 2008, a new Chapter 5.46, "Square Footage Tax," is
6 added to Title 5 of the Seattle Municipal Code as follows:

7 **5.46.010 Administrative Provisions.**

8 All of the provisions contained in Chapter 5.55 of the Seattle Municipal Code shall have
9 full force and application with respect to taxes imposed under the provisions of this chapter
10 except as may be expressly stated to the contrary herein.

11 **5.46.020 Definitions.**

12 The definitions contained in Chapter 5.30 of the Seattle Municipal Code shall be fully
13 applicable to this chapter except as may be expressly stated to the contrary herein. The following
14 additional definitions shall apply throughout this Chapter:

15 A. "Business floor space" means rentable square feet of an office or place of business
16 and includes the proportionate share of the building service areas such as lobbies, corridors and
17 other common areas in a building. The rentable square footage shall be computed by measuring
18 to the inside finish of permanent outer building walls and shall include space used by columns
19 and projections necessary to the building. Business floor space does not include vertical
20 penetrations through the building such as stairs, elevators, or heating, ventilation, air
21 conditioning, utility, or telephone systems. Business floor space does not include other floor
22
23
24
25
26
27
28

space as defined in subsection B below. If the business floor space is owned by the taxpayer, the business floor space will be calculated in the same manner as above and as if the area was rented.

B. "Other floor space" means rentable square feet used for dining areas, exercise areas, or warehouse space.

1. "Dining area" means any space used exclusively by employees for the purpose of purchasing, preparing, or consuming meals.

2. "Exercise area" means any space used exclusively by employees for the purpose of physical exercise not related to an employee's normal job duties.

3. "Warehouse space" means any space used exclusively for the storage of merchandise or commodities.

Other floor space will be measured in the same manner as business floor space whether owned or rented.

5.46.030 Tax Imposed—Measure of the Tax.

A. A square footage tax for the act or privilege of engaging in business activities within the city is hereby levied upon and shall be collected from every person that leases, owns, occupies or otherwise maintains an office or place of business within the city. The tax shall be measured by the number of square feet of business floor space and other floor space for each office or place of business leased, owned, occupied or otherwise maintained within the city during the reporting period.

B. The amount of the tax due shall be equal to the sum of the number of square feet of business floor space for each office or place of business leased, owned, occupied or otherwise

1 maintained within the city multiplied by the rate of \$0.39 quarterly (\$1.56 annually), and the
2 number of square feet of other floor space for each office or place of business leased, owned,
3 occupied or otherwise maintained within the city multiplied by the rate of \$0.13 quarterly (\$.52
4 annually). The Director will adjust the square footage tax rate annually for inflation as follows:
5 the tax rate for a year will be equal to the tax rate for the previous year increased (or decreased)
6 by the percentage change in the annual Seattle-Tacoma-Bremerton, WA consumer price index for
7 all urban consumers (CPI-U) for the previous year.
8

9 C. Persons with more than one office or place of business must include all business floor
10 space and other floor space for all locations. When a person rents space to another person, the
11 person occupying the rental space is responsible for the square footage tax on that rental space
12 only if the renter has exclusive right of possession in the space as against the landlord. Space
13 rented for the storage of goods in a warehouse where no walls separate the goods, and where the
14 exclusive right of possession in the space is not held by the person to whom the space is rented,
15 shall be included in the other floor space of the person that operates the warehouse business, and
16 not by the business renting the warehouse space.
17
18

19 D. Persons whose business floor space, other floor space, or period of occupancy
20 changes during a reporting period shall prorate the business floor space or other floor space for
21 the reporting period. A change in the period of occupancy during the reporting period shall be
22 prorated using a ratio of the number of days of occupancy during the reporting period compared
23 to the total number of days within the reporting period. If the amount of business floor space or
24 other floor space changes during the reporting period, floor space for the period shall be
25
26
27
28

1 computed as a weighted average of the rentable space occupied during different segments of the
2 reporting period. Weighting will be based upon the percentage of the reporting period that a
3 given amount of space was leased, owned, occupied, or otherwise maintained within the city.

4 E. Any person required to pay the square footage tax imposed in this chapter that also
5 pays the business license tax as imposed in SMC 5.45.050 may take a credit against the square
6 footage tax computed as follows:
7

8 1. The credit is equal to the square footage tax owed for the reporting period
9 multiplied by the ratio of adjusted gross income derived from the Seattle business
10 location(s) for the reporting period to the total gross income derived from the
11 Seattle business location(s) for the reporting period.

12 2. For the purpose of this section, "total gross income derived from the Seattle
13 business location(s)" is equal to the total gross income derived from the business
14 activities rendered by, generated from, or attributable to the place(s) of business
15 located within the city.
16

17 3. For the purpose of this section, "adjusted gross income derived from the
18 Seattle business location(s)" shall include total gross income derived from the
19 Seattle business location(s) less:
20

21 (a) income derived from the sales of tangible personal property
22 and retail services by the Seattle business location(s) delivered to a
23 location within the State of Washington where no local jurisdiction
24 imposes an eligible gross receipts tax; and
25
26
27
28

(b) the gross income of the Seattle business location(s) subject to the business license tax under SMC 5.45.050G as determined by SMC 5.45.060 through SMC 5.45.080 less the gross income of the Seattle business location(s) subject to the business license tax under SMC 5.45.050G as determined by SMC 5.45.060 through SMC 5.45.076 and SMC 5.45.081.

When the change in income calculated in subsection 3(b) is a negative number, the amount so calculated shall reduce the amount calculated in subsection 3(a); however, if the sum of the totals calculated under subsections 3(a) and 3(b) is a negative number, then the adjusted gross income derived from the Seattle business location(s) shall be equal to the total gross income derived from the Seattle business location(s).

4. In computing the tax credit, any gross receipts from manufacturing, extracting, and printing, and also subject to a selling tax (such as retailing and wholesaling) according to the Multiple Activity Tax Credit (SMC 5.45.070), shall be included in the gross income and the adjusted gross income only once.

5.46.040 Square footage tax —When due.

The tax imposed by this chapter shall be due and payable in accordance with SMC 5.55.040 in the same manner as the business license tax under SMC 5.45. Taxpayers filing their business license tax on a quarterly basis shall file the square footage tax on a quarterly basis and taxpayers filing their business license tax on an annual basis shall file the square footage tax on

1 an annual basis on forms prescribed by the Director. Persons discontinuing their business
2 activities in Seattle shall report and pay the square footage tax at the same time as they file their
3 final business license tax return.

4 **5.46.050 Exemptions and deductions from the square footage tax.**

5 A. The following persons are exempt from the square footage tax:

6 1. Any person qualifying under the tax threshold as provided in SMC 5.55.040 D
7
8 1 shall be exempt from the square footage tax in the year which they qualify under
9 the tax threshold.

10 2. Persons that are exempted from taxation by cities pursuant to federal or state
11 statutes or regulations, including, but not limited to, the following:

12 (a) Insurance businesses and their agents as defined by RCW 48.01.050
13 and 48.17.010, respectively, and whose total revenue is exempt from the
14 business license tax per SMC 5.45;

15 (b) Businesses that only sell, manufacture, or distribute motor vehicle fuel
16 as defined in RCW 82.36.010 and exempted under RCW 82.36.440;

17 (c) Businesses that distribute or sell only liquor as defined in RCW
18 66.04.010 and exempted in RCW 66.08.120; and

20 458-28.

1 B. Persons owing no business license tax pursuant to SMC 5.45.050 due to exemptions
2 or deductions contained in SMC 5.45.090 or SMC 5.45.100 (with the exception of subsection
3 SMC 5.45.100 W) may take a credit against the square footage tax for the total amount of the tax.

4 C. The portion of the business floor space and other floor space that is used exclusively
5 to administer and manage other offices or places of business outside of Seattle shall be
6 considered headquarters activities and shall not be included in the square footage tax calculation.
7

8 D. Persons taxable under the utility tax pursuant SMC 5.48 are exempt from the square
9 footage tax provided they generate no gross income from activities taxable under SMC 5.45.050.
10 If taxpayers subject to the utility tax generate gross income from activities taxable under SMC
11 5.45.050, only the floor space used in generating such gross income will be subject to the square
12 footage tax provisions of this chapter.
13

14 **5.46.060 Maximum Square Footage Tax Credit**

15 After application of the square footage tax credit provided in SMC 5.46.030 E, if the
16 gross receipts business license tax assessed under SMC Chapter 5.45 and the square footage tax
17 assessed under SMC Chapter 5.46 combine to result in a tax increase for the taxpayer when
18 compared to the amount of tax that would have been due under the requirements of SMC Chapter
19 5.45 in effect prior to the implementation of RCW 35.102.130 on January 1, 2008, then an
20 additional credit may be taken against the square footage tax for the amount of such tax increase.

Legislation Title: AN ORDINANCE related to taxation of businesses; creating a new Chapter 5.46 of the Seattle Municipal Code; and amending sections 3.02.125, 5.30.010, 5.30.060, 5.55.010, 5.55.040, 5.55.060, 5.55.150, 5.55.165, 5.55.220, and 5.55.230 of the Seattle Municipal Code.

- **Summary of the Legislation:** This legislation will impose a square footage tax, similar to the one Bellevue has used for many years, in order to mitigate the \$21.9 million in Business & Occupation tax revenue Seattle will lose in 2008 due to the passage of HB 2030 (RCW 35.102.130). The tax has been calculated in such a way that no business will pay more taxes than they do under existing (2007) tax law.
- **Background:** *(Include brief description of the purpose and context of legislation and include record of previous legislation and funding history, if applicable):*

In 2003, the State Legislature passed HB 2030 (now codified as RCW 35.102.130) that changes how cities can impose their Business and Occupation (B&O) taxes on certain types of business activities. Among the changes introduced by HB 2030 were new procedures for the allocation and apportionment of business income, which take effect on January 1, 2008.

Using tax data for 2004, the State Department of Revenue estimated the new allocation and apportionment procedures would reduce B&O revenue for cities by about \$23.3 million, with Seattle losing about \$15.6 million. Projecting these results to 2008 means Seattle will lose about \$21.9 million in B&O revenue.

In response to the expected loss of \$21.9 million in B&O tax revenue resulting from the imposition of HB 2030's apportionment and allocation procedures, the Mayor has proposed a new floor area, or square footage, tax (similar to what Bellevue has used for many years) that will be implemented on January 1, 2008. The only businesses that will

pay the square footage business tax are those that receive a tax reduction as a result of the new allocation and apportionment procedures. The tax is structured so that no business will pay more tax on its activities than would have been the case under existing (2007) tax law. Some businesses will pay the same tax as they would under current law, others will pay less, but none will pay more.

Floor area will be taxed at two different rates. Business floor space, which includes office, retail, and production space, will be taxed at 39 cents per square foot per quarter. Other floor space, such as warehouse, storage, dining, and exercise space, will be taxed at 13 cents per square foot per quarter. The tax rates will be adjusted annually for inflation.

To determine the square footage business tax rate, an estimate of the city's taxable floor area was developed using commercial building data from the King County Assessor and other sources, along with employment, and tax revenue data from other sources. The tax rate was set at a level to recover the \$21.9 million revenue loss estimated by the Department of Revenue. However, the provision that no business will pay more in tax under the new law than under current law results in a reduction in revenue to a level below full recovery.

Any business that pays both the gross receipts B&O tax and the square footage business tax may take a credit against the square footage business tax for the amount of gross receipts tax paid. To use the credit, a business first computes the square footage business tax it would owe on 100% of its floor area, and then multiplies that figure by the credit. The credit is determined by computing the total gross income derived from the Seattle business locations less the gross income derived from the Seattle business locations that is exempted from taxation by HB 2030, and then dividing that figure by the total gross income derived from the Seattle business locations. In simple terms, if a Seattle business receives a 20% reduction in its gross receipts tax from HB 2030, 20% of its floor area will be subject to the square footage business tax.

To ensure that no business faces a tax increase due to the implementation of the square footage business tax, a maximum square footage tax credit is provided. To use this credit, a business computes its tax under both the new post-January 1, 2008 tax law and the old pre-January 1, 2008 tax law. If the tax due is higher under the new law, the business is allowed to take a credit for the difference between the tax computed under the new law and the tax computed under the old law.

ORDINANCE 122564

AN ORDINANCE related to taxation of businesses; creating a new Chapter 5.46 of the Seattle Municipal Code; and amending sections 3.02.125, 5.30.010, 5.30.060, 5.55.010, 5.55.040, 5.55.060, 5.55.150, 5.55.165, 5.55.220, and 5.55.230 of the Seattle Municipal Code.

WHEREAS, the State of Washington grants cities the power to license businesses for the purpose of raising revenue; and

WHEREAS, the City of Seattle has, since 1932, imposed a business license tax (also known as a business and occupation (B&O) tax or gross receipts tax) on persons engaging in business in Seattle; and

WHEREAS, in 2003, the Legislature passed HB 2030, now codified as Chapter 35.102 RCW, which changed how cities impose B&O taxes; and

WHEREAS, RCW 35.102.130, which becomes effective on January 1, 2008, requires cities to change how B&O taxes are calculated for certain types of businesses; and

WHEREAS, in 2005, at the Legislature's request, the Washington Department of Revenue completed a study of the effects of RCW 35.102.130, which estimated that the City of Seattle would lose about \$15.6 million in revenue as a result of the new provisions; and

WHEREAS, updating this estimate to reflect inflation and growth in the tax base suggests the City of Seattle will lose about \$21.9 million in revenue in 2008; and

WHEREAS, RCW 35.102.1301 states that the Legislature's intent in having the Department of Revenue conduct a study was "to allow local jurisdictions to anticipate and appropriately address any potential adverse revenue impacts" from the change in state law; and

WHEREAS, the Mayor and City Council have reviewed multi-year forecasts of the effects of RCW 35.102.130 on the City's General Fund budget and believe the resulting revenue loss would preclude the City from proceeding with planned increases in police staffing, improvements in transportation infrastructure, and support for the 10-Year Plan to End Homelessness; and

WHEREAS, other Washington cities use different forms and combinations of business taxation, including taxes measured by the space used by businesses; and

WHEREAS, in imposing a new complementary tax under this ordinance, the Mayor and City Council seek to ensure that no business will pay more total tax than it would have under existing law; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Effective January 1, 2008, a new Chapter 5.46, "Square Footage Tax," is added to Title 5 of the Seattle Municipal Code as follows:

5.46.010 Administrative Provisions.

All of the provisions contained in Chapter 5.55 of the Seattle Municipal Code shall have full force and application with respect to taxes imposed under the provisions of this chapter except as may be expressly stated to the contrary herein.

5.46.020 Definitions.

The definitions contained in Chapter 5.30 of the Seattle Municipal Code shall be fully applicable to this chapter except as may be expressly stated to the contrary herein. The following additional definitions shall apply throughout this Chapter:

A. "Business floor space" means rentable square feet of an office or place of business and includes the proportionate share of the building service areas such as lobbies, corridors and other common areas in a building. The rentable square footage shall be computed by measuring to the inside finish of permanent outer building walls and shall include space used by columns and projections necessary to the building. Business floor space does not include vertical penetrations through the building such as stairs, elevators, or heating, ventilation, air conditioning, utility, or telephone systems. Business floor space does not include other floor space as defined in subsection B below. If the business floor space is owned by the taxpayer, the business floor space will be calculated in the same manner as above and as if the area was rented.

B. "Other floor space" means rentable square feet used for dining areas, exercise areas, or warehouse space.

1. "Dining area" means any space used exclusively by employees for the purpose of purchasing, preparing, or consuming meals.

2. "Exercise area" means any space used exclusively by employees for the purpose of physical exercise not related to an employee's normal job duties.

3. "Warehouse space" means any space used exclusively for the storage of merchandise or commodities.

Other floor space will be measured in the same manner as business floor space whether owned or rented.

5.46.030 Tax Imposed—Measure of the Tax.

A. A square footage tax for the act or privilege of engaging in business activities within the city is hereby levied upon and shall be collected from every person that leases, owns, occupies or otherwise maintains an office or place of business within the city. The tax shall be measured by the number of square feet of business floor space and other floor space for each office or place of business leased, owned, occupied or otherwise maintained within the city during the reporting period.

B. The amount of the tax due shall be equal to the sum of the number of square feet of business floor space for each office or place of business leased, owned, occupied or otherwise maintained within the city multiplied by the rate of \$0.39 quarterly (\$1.56 annually), and the number of square feet of other floor space for each office or place of business leased, owned, occupied or otherwise maintained within the city multiplied by the rate of \$0.13 quarterly (\$0.52 annually). The Director will adjust the square footage tax rate annually for inflation as follows: the tax rate for a year will be equal to the tax rate for the previous year increased (or decreased) by the percentage change in the annual Seattle-Tacoma-Bremerton, WA consumer price index for all urban consumers (CPI-U) for the previous year.

C. Persons with more than one office or place of business must include all business floor space and other floor space for all locations. When a person rents space to another person, the person occupying the rental space is responsible for the square footage tax on that rental space only if the renter has exclusive right of possession in the space as against the landlord. Space rented for the storage of goods in a warehouse where no walls separate the goods, and where the exclusive right of possession in the space is not held by the person to whom the space is rented, shall be included in the other floor space of the person that operates the warehouse business, and not by the business renting the warehouse space.

D. Persons whose business floor space, other floor space, or period of occupancy changes during a reporting period shall prorate the business floor space or other floor space for the reporting period. A change in the period of occupancy during the reporting period shall be prorated using a ratio of the number of days of occupancy during the reporting period compared to the total number of days within the reporting period. If the amount of business floor space or other floor space changes during the reporting period, floor space for the period shall be computed as a weighted average of the rentable space occupied during different segments of the reporting period. Weighting will be based upon the percentage of the reporting period that a given amount of space was leased, owned, occupied, or otherwise maintained within the city.

E. Any person required to pay the square footage tax imposed in this chapter that also pays the business license tax as imposed in SMC 5.45.050 may take a credit against the square footage tax computed as follows:

1. The credit is equal to the square footage tax owed for the reporting period multiplied by the ratio of adjusted gross income derived from the Seattle business location(s) for the reporting period to the total gross income derived from the Seattle business location(s) for the reporting period.

2. For the purpose of this section, "total gross income derived from the Seattle business location(s)" is equal to the total gross income derived from the business activities rendered by, generated from, or attributable to the place(s) of business located within the city.

3. For the purpose of this section, "adjusted gross income derived from the Seattle business location(s)" shall include total gross income derived from the Seattle business location(s) less:

(a) income derived from the sales of tangible personal property and retail services by the Seattle business location(s) delivered to a location within the State of Washington where no local jurisdiction imposes an eligible gross receipts tax; and

(b) the gross income of the Seattle business location(s) subject to the business license tax under SMC 5.45.050G as determined by SMC 5.45.060 through SMC 5.45.080 less the gross income of the Seattle business location(s) subject to the business license tax under SMC 5.45.050G as determined by SMC 5.45.060 through SMC 5.45.076 and SMC 5.45.081.

When the change in income calculated in subsection 3(b) is a negative number, the amount so calculated shall reduce the amount calculated in subsection 3(a); however, if the sum of the totals calculated under subsections 3(a) and 3(b) is a negative number, then the adjusted gross income derived from the Seattle business location(s) shall be equal to the total gross income derived from the Seattle business location(s).

4. In computing the tax credit, any gross receipts from manufacturing, extracting, and printing, and also subject to a selling tax (such as retailing and wholesaling) according to the Multiple Activity Tax Credit (SMC 5.45.070), shall be included in the gross income and the adjusted gross income only once.

5.46.040 Square footage tax—When due.

The tax imposed by this chapter shall be due and payable in accordance with SMC 5.55.040 in the same manner as the business license tax under SMC 5.45. Taxpayers filing their business license tax on a quarterly basis shall file the square footage tax on a quarterly basis and taxpayers filing their business license tax on an annual basis shall file the square footage tax on an annual basis on forms prescribed by the Director. Persons discontinuing their business activities in Seattle shall report and pay the square footage tax at the same time as they file their final business license tax return.

5.46.050 Exemptions and deductions from the square footage tax.

A. The following persons are exempt from the square footage tax:

1. Any person qualifying under the tax threshold as provided in SMC 5.55.040 D 1 shall be exempt from the square footage tax in the year which they qualify under the tax threshold.

2. Persons that are exempted from taxation by cities pursuant to federal or state statutes or regulations, including, but not limited to, the following:

(a) Insurance businesses and their agents as defined by RCW 48.01.050 and 48.17.010, respectively, and whose total revenue is exempt from the business license tax per SMC 5.45;

(b) Businesses that only sell, manufacture, or distribute motor vehicle fuel as defined in RCW 82.36.010 and exempted under RCW 82.36.440;

(c) Businesses that distribute or sell only liquor as defined in RCW 66.04.010 and exempted in RCW 66.08.120; and

(d) Banks, whose income is apportioned according to WAC Chapter 458-28.

B. Persons owing no business license tax pursuant to SMC 5.45.050 due to exemptions or deductions contained in SMC 5.45.090 or SMC 5.45.100 (with the exception of subsection SMC 5.45.100 W) may take a credit against the square footage tax for the total amount of the tax.

C. The portion of the business floor space and other floor space that is used exclusively to administer and manage other offices or places of business outside of Seattle shall be considered headquarters activities and shall not be included in the square footage tax calculation.

D. Persons taxable under the utility tax pursuant SMC 5.48 are exempt from the square footage tax provided they generate no gross income from activities taxable under SMC 5.45.050. If taxpayers subject to the utility tax generate gross income from activities taxable under SMC 5.45.050, only the floor space used in generating such gross income will be subject to the square footage tax provisions of this chapter.

5.46.060 Maximum Square Footage Tax Credit

After application of the square footage tax credit provided in SMC 5.46.050 E, if the gross receipts business license tax assessed under SMC Chapter 5.45 and the square footage tax assessed under SMC Chapter 5.46 combine to result in a tax increase for the taxpayer when compared to the amount of tax that would have been due under the requirements of SMC Chapter 5.45 in effect prior to the implementation of RCW 35.102.130 on January 1, 2008, then an additional credit may be taken against the square footage tax for the amount of such tax increase.

5.46.070 Tax In Addition To Other License Fees Or Taxes.

The tax imposed herein shall be in addition to any license fee or tax imposed or levied under any other law, statute or ordinance whether imposed or levied by the City, State or other governmental entity or political subdivision.

Section 2. Effective January 1, 2008, Section 5.30.010 of the Seattle Municipal Code is amended as follows:

ORDINANCE 122564

AN ORDINANCE related to taxation of businesses; creating a new Chapter 5.46 of the Seattle Municipal Code; and amending sections 3.02.125, 5.30.010, 5.30.060, 5.55.010, 5.55.040, 5.55.060, 5.55.150, 5.55.165, 5.55.220, and 5.55.230 of the Seattle Municipal Code.

WHEREAS, the State of Washington grants cities the power to license businesses for the purpose of raising revenue; and

WHEREAS, the City of Seattle has, since 1932, imposed a business license tax (also known as a business and occupation (B&O) tax or gross receipts tax) on persons engaging in business in Seattle; and

WHEREAS, in 2003, the Legislature passed HB 2030, now codified as Chapter 35.102 RCW, which changed how cities impose B&O taxes; and

WHEREAS, RCW 35.102.130, which becomes effective on January 1, 2008, requires cities to change how B&O taxes are calculated for certain types of businesses; and

WHEREAS, in 2005, at the Legislature's request, the Washington Department of Revenue completed a study of the effects of RCW 35.102.130, which estimated that the City of Seattle would lose about \$15.6 million in revenue as a result of the new provisions; and

WHEREAS, updating this estimate to reflect inflation and growth in the tax base suggests the City of Seattle will lose about \$21.9 million in revenue in 2008; and

WHEREAS, RCW 35.102.130 states that the Legislature's intent in having the Department of Revenue conduct a study was "to allow local jurisdictions to anticipate and appropriately address any potential adverse revenue impacts" from the change in state law; and

WHEREAS, the Mayor and City Council have reviewed multi-year forecasts of the effects of RCW 35.102.130 on the City's General Fund budget and believe the resulting revenue loss would preclude the City from proceeding with planned increases in police staffing, improvements in transportation infrastructure, and support for the 10-Year Plan to End Homelessness; and

WHEREAS, other Washington cities use different forms and combinations of business taxation, including taxes measured by the space used by businesses; and

WHEREAS, in imposing a new complementary tax under this ordinance, the Mayor and City Council seek to ensure that no business will pay more total tax than it would have under existing law; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Effective January 1, 2008, a new Chapter 5.46, "Square Footage Tax," is added to Title 5 of the Seattle Municipal Code as follows:

5.46.010 Administrative Provisions.

All of the provisions contained in Chapter 5.55 of the Seattle Municipal Code shall have full force and application with respect to taxes imposed under the provisions of this chapter except as may be expressly stated to the contrary herein.

5.46.020 Definitions.

The definitions contained in Chapter 5.30 of the Seattle Municipal Code shall be fully applicable to this chapter except as may be expressly stated to the contrary herein. The following additional definitions shall apply throughout this Chapter:

A. "Business floor space" means rentable square feet of an office or place of business and includes the proportionate share of the building service areas such as lobbies, corridors and other common areas in a building. The rentable square footage shall be computed by measuring to the inside finish of permanent outer building walls and shall include space used by columns and projections necessary to the building. Business floor space does not include vertical penetrations through the building such as stairs, elevators, or heating, ventilation, air conditioning, utility, or telephone systems. Business floor space does not include other floor space as defined in subsection B below. If the business floor space is owned by the taxpayer, the business floor space will be calculated in the same manner as above and as if the area was rented.

B. "Other floor space" means rentable square feet used for dining areas, exercise areas, or warehouse space.

1. "Dining area" means any space used exclusively by employees for the purpose of purchasing, preparing, or consuming meals.

2. "Exercise area" means any space used exclusively by employees for the purpose of physical exercise not related to an employee's normal job duties.

3. "Warehouse space" means any space used exclusively for the storage of merchandise or commodities.

Other floor space will be measured in the same manner as business floor space whether owned or rented.

5.46.030 Tax Imposed—Measure of the Tax.

A. A square footage tax for the act or privilege of engaging in business activities within the city is hereby levied upon and shall be collected from every person that leases, owns, occupies or otherwise maintains an office or place of business within the city. The tax shall be measured by the number of square feet of business floor space and other floor space for each office or place of business leased, owned, occupied or otherwise maintained within the city during the reporting period.

B. The amount of the tax due shall be equal to the sum of the number of square feet of business floor space for each office or place of business leased, owned, occupied or otherwise maintained within the city multiplied by the rate of \$0.39 quarterly (\$1.56 annually), and the number of square feet of other floor space for each office or place of business leased, owned, occupied or otherwise maintained within the city multiplied by the rate of \$0.13 quarterly (\$0.52 annually). The Director will adjust the square footage tax rate annually for inflation as follows: the tax rate for a year will be equal to the tax rate for the previous year increased (or decreased) by the percentage change in the annual Seattle-Tacoma-Bremerton, WA consumer price index for all urban consumers (CPI-U) for the previous year.

C. Persons with more than one office or place of business must include all business floor space and other floor space for all locations. When a person occupies the rental space is responsible for the square footage tax on that rental space only if the renter has exclusive right of possession in the space as against the landlord. Space rented for the storage of goods in a warehouse where no walls separate the goods, and where the exclusive right of possession in the space is not held by the person to whom the space is rented, shall be included in the other floor space of the person that operates the warehouse business, and not by the business renting the warehouse space.

D. Persons whose business floor space, other floor space, or period of occupancy changes during a reporting period shall prorate the business floor space or other floor space for the reporting period. A change in the period of occupancy during the reporting period shall be prorated using a ratio of the number of days of occupancy during the reporting period compared to the total number of days within the reporting period. If the amount of business floor space or other floor space changes during the reporting period, floor space for the period shall be computed as a weighted average of the rentable space occupied during different segments of the reporting period. Weighting will be based upon the percentage of the reporting period that a given amount of space was leased, owned, occupied, or otherwise maintained within the city.

E. Any person required to pay the square footage tax imposed in this chapter that also pays the business license tax as imposed in SMC 5.45.050 may take a credit against the square footage tax computed as follows:

1. The credit is equal to the square footage tax owed for the reporting period multiplied by the ratio of adjusted gross income derived from the Seattle business location(s) for the reporting period to the total gross income derived from the Seattle business location(s) for the reporting period.

2. For the purpose of this section, "total gross income derived from the Seattle business location(s)" is equal to the total gross income derived from the business activities rendered by, generated from, or attributable to the place(s) of business located within the city.

3. For the purpose of this section, "adjusted gross income derived from the Seattle business location(s)" shall include total gross income derived from the Seattle business location(s) less:

(a) income derived from the sales of tangible personal property and retail services by the Seattle business location(s) delivered to a location within the State of Washington where no local jurisdiction imposes an eligible gross receipts tax; and

(b) the gross income of the Seattle business location(s) subject to the business license tax under SMC 5.45.050G as determined by SMC 5.45.060 through SMC 5.45.080 less the gross income of the Seattle business location(s) subject to the business license tax under SMC 5.45.050G as determined by SMC 5.45.060 through SMC 5.45.076 and SMC 5.45.081.

When the change in income calculated in subsection 3(b) is a negative number, the amount so calculated shall reduce the amount calculated in subsection 3(a); however, if the sum of the totals calculated under subsections 3(a) and 3(b) is a negative number, then the adjusted gross income derived from the Seattle business location(s) shall be equal to the total gross income derived from the Seattle business location(s).

4. In computing the tax credit, any gross receipts from manufacturing, extracting, and printing, and also subject to a selling tax (such as retailing and wholesaling) according to the Multiple Activity Tax Credit (SMC 5.45.070), shall be included in the gross income and the adjusted gross income only once.

5.46.040 Square footage tax—When due.

The tax imposed by this chapter shall be due and payable in accordance with SMC 5.55.040 in the same manner as the business license tax under SMC 5.45. Taxpayers filing their business license tax on a quarterly basis shall file the square footage tax on a quarterly basis and taxpayers filing their business license tax on an annual basis shall file the square footage tax on an annual basis on forms prescribed by the Director. Persons discontinuing their business activities in Seattle shall report and pay the square footage tax at the same time as they file their final business license tax return.

5.46.050 Exemptions and deductions from the square footage tax.

A. The following persons are exempt from the square footage tax:

1. Any person qualifying under the tax threshold as provided in SMC 5.55.040 D 1 shall be exempt from the square footage tax in the year which they qualify under the tax threshold.

2. Persons that are exempted from taxation by cities pursuant to federal or state statutes or regulations, including, but not limited to, the following:

(a) Insurance businesses and their agents as defined by RCW 48.01.050 and 48.17.010, respectively, and whose total revenue is exempt from the business license tax per SMC 5.45;

(b) Businesses that only sell, manufacture, or distribute motor vehicle fuel as defined in RCW 82.36.010 and exempted under RCW 82.36.440;

(c) Businesses that distribute or sell only liquor as defined in RCW 66.04.010 and exempted in RCW 66.08.120; and

(d) Banks, whose income is apportioned according to WAC Chapter 458-28.

B. Persons owing no business license tax pursuant to SMC 5.45.050 due to exemptions or deductions contained in SMC 5.45.090 or SMC 5.45.100 (with the exception of subsection SMC 5.45.100 W) may take a credit against the square footage tax for the total amount of the tax.

C. The portion of the business floor space and other floor space that is used exclusively to administer and manage other offices or places of business outside of Seattle shall be considered headquarters activities and shall not be included in the square footage tax calculation.

D. Persons taxable under the utility tax pursuant SMC 5.48 are exempt from the square footage tax provided they generate no gross income from activities taxable under SMC 5.45.050. If taxpayers subject to the utility tax generate gross income from activities taxable under SMC 5.45.050, only the floor space used in generating such gross income will be subject to the square footage tax provisions of this chapter.

5.46.060 Maximum Square Footage Tax Credit

After application of the square footage tax credit provided in SMC 5.46.030 E, if the gross receipts business license tax assessed under SMC Chapter 5.45 and the square footage tax assessed under SMC Chapter 5.46 combine to result in a tax increase for the taxpayer when compared to the amount of tax that would have been due under the requirements of SMC Chapter 5.45 in effect prior to the implementation of RCW 35.102.130 on January 1, 2008, then an additional credit may be taken against the square footage tax for the amount of such tax increase.

5.46.070 Tax In Addition To Other License Fees Or Taxes.

The tax imposed herein shall be in addition to any license fee or tax imposed or levied under any other law, statute or ordinance whether imposed or levied by the City, State or other governmental entity or political subdivision.
